

## Portable Gantry

Rigid Lifelines™ Portable Gantry fall protection systems offer freedom of coverage without the limited footprint of a permanently installed system. The ideal solution for on-the-spot jobs in maintenance and manufacturing applications, the system can simply be rolled and locked into position. There is no need to install guarding or rails around temporary work areas; our gantry's full portability saves you time and money. Rigid Lifelines™ Portable Gantry fall protection systems are sold exclusively as custom engineered systems, tailored to meet your safety needs and those of your workers.

*{NOTE: Our systems are designed with a maximum worker load of 400lbs (on one person systems) when used with 900lb Maximum Arresting Force self-retracting lanyards and properly rated full body harnesses and connecting hardware. Custom systems are available for multiple workers; please inquire with our sales department for more information.}*

## A fall protection system that provides versatility, simplicity, and practicality!

- A full standard line of gantry models lets you select the one that's best for your work environment.
- Go-anywhere design lets you move the gantry around your factory or jobsite to provide fall protection where it's needed without the need for a permanent system.
- Convenient for on-the-spot tasks. Roll and lock the gantry into place with wheel locks and roll it out of the area when the job is done.
- Enclosed track design prevents dirt or ice build-up from interfering with trolley movement.

## Choose the options that work best for you!

- Manual leveling jacks
- Power drives
- Foam filled pneumatic tires
- Large diameter wheels to ease positioning
- Single track, dual track, or multiple tracks
- Layered primer with single and double enamel coatings, epoxy coatings, and galvanized finish
